Hi neighbors:

At about noon on Sunday a home on Westlyn was broken into and a number of items were taken--a neighbor saw part of it and described the car as a grey jeep or durango type--they (there were several persons involved) came and went in about 15 minutes and either knew the house was empty or took a chance but they were very efficient in locating jewelery and other valuables. A neighbor called the police as the car sped onto Western Avenue and headed east.

While the investigation by the Guilderland police is proceeding, please help--your neighbors and yourselves need become more vigilant. We each must do what we can by staying aware of what is happening around us--and calling 911 when you suspect something wrong is occurring.

Since not all homes and businesses in McKownville will be receiving this message please take the time to talk to your neighbors and tell them about the burglary.

Thank you.

Don Reeb
