meeting with Ken---draft

Donald Reeb

Mar 22 (6 days ago)

to Ellen

The meeting with Ken Runion indicated that he was in favor of McKownville processing with the establishment of a special district for drainage.

He indicated that it might be difficult to include either Woodscape or the "Coarlbery" condominiums in the district but that the inclusion of Stuyvesant was reasonable.

The process of voting, if it would occur, would be by "owners"---if the house has two names on its ownership then that would be two voters. Renters do not vote. If not registered to vote but an owner, then voting is possible.

He did not foresee a problem of Town Board approval as long as there was McKownville approval.
