This is 11" x 7" bronze with 4 studs on the back corners.

I like the key border, too. You know her personality and what she'd have liked, so I trust your feeling on that. The \$400 price covers either design and is ok for this size and even a little bit larger if you'd like.

Frank:

I like these very much. Are both designs the same price? As I recall your estimate was about \$400.00 when we spoke last week. My inclination is to go with the green background and shape of the design on top, perhaps substituting the Greek key ornamentation shown on the design below. Do you think that would work?

It's now attached and in the text. If that doesn't work, you might try another computer, or I can send a pdf.
